Profile

As an integrated MCA student, I'm deeply interested in software development and Full stack. I've gained hands-on experience building web & mobile applications and logic-based systems, working with Java, Python, JavaScript, and Flutter. My portfolio includes a range of real-world applications, from mobile utilities to algorithm-based tools like puzzle solvers and data-processing systems.

I'm seeking opportunities to further develop my skills in Full-stack development, backend systems, and software development, with a strong emphasis on clean logic, scalability, and continuous learning.

Internship Experience

Software Development Intern, SkillCraft Technology

- Duration: 1 month
- Developed logic-driven applications using Python, focusing on problem solving and structured code design
- Implemented an algorithm-based Sudoku generator and solver using backtracking techniques
- Performed data extraction and processing, exporting structured datasets to CSV files using Python Pandas.
- Technologies: Pandas, custom tkinter & Algorithms

Android Application Development Intern, Oasis Infobyte

- Duration: 1 month
- Designed and developed multiple mobile applications including a scientific calculator, to-do list, stopwatch, quiz app, and unit converter
- Implemented user interfaces using XML and application logic using Java
- Strengthened understanding of mobile UI design and backend integration concepts
- Focused on clean and input validation
- Technologies: Java, XML, Android Studio & Git

Education

Integrated Master of Computer Applications (MCA),

Amrita Vishwa Vidyapeetham, Kochi

CGPA: 8.58

2023 – 2028

Kochi

Higher Secondary (CS), GHSS Anchalumoodu, Kollam

87.8%

2023

PROGRAMMING SKILLS

Programming Languages

- Java - Expert
- Python - Proficient
- C - Amateur
- C++ - Amateur
- C# - Amateur
- SQL - Proficient

Web Frontend & Backend

- HTML, CSS, & React.js
- PHP
- JSON-based API calls
- JavaScript
- J2EE & JDBC

Databases & Cloud

- Zoho CRM (API integration)
- Firebase database (NoSQL)
- SQLite (Android Operating System)
- MySQL & MariaDB

Tools & Platforms

- Android Studio
- Hostinger & phpMyAdmin
- WordPress
- VS Code & Visual Studio
- Git & GitHub
- Firebase Console
- WAMP / Local Servers
- NetBeans

INTERPERSONAL SKILLS

Interpersonal Skills

Leadership Team Collaboration

Adaptability Coordination

Hardworking

Projects

Web Application Portal for Integrated Business Operations Management,

Company: LedgerWorx, Corporate Services and Business Consulting, Dubai, UAE.

- Duration: 3 months
- Designed and developed a centralized role-based web portal to streamline client, sales, accounting, and management operations for a professional service organization.
- Developing a role-based authentication and authorization system for clients, sales, accounting, admin, and management users
- Designing modular architecture integrating frontend, backend, database, and external CRM systems
- Implementing Zoho CRM REST API integration for lead and client synchronization
- Building KPI dashboards for management with real-time operational insights
- Structuring secure data handling with role-based access control and activity logging
- Applying Agile methodology for iterative development and feature validation

Software Development

- Object-Oriented Programming (OOP)
- Data Structures & Algorithms (DSA)
- Customer Relationship Management (CRM) integration
- Database Management Systems (DBMS)
- Backend Validation & Application Flow Design

Mobile Application Development

- Cross-Platform Application Development - Flutter
- Android App Development – Java/XML

Python Libraries & Tools

- NumPy, Matplotlib & Pandas
- CustomTkinter (GUI Applications)

- Role: Software Engineer (Full-Stack & DevOps)
- Technologies: React.js, WordPress, PHP, Web technologies, Zoho CRM API Integration, MySQL/MariaDB.

Smart Reminder & Task Management System for ADHD and Early Dementia Patients,

Role: Project Lead & Android Developer

- Duration: 3 months
- Developed a mobile application to help ADHD and early dementia patients manage routines, reduce task overload, and ensure timely reminders.
- Enhanced patient categorization using WHO approved ASRS & MoCA screening.
- Caretaker portal for remote monitoring and task modification
- Daily & weekly progress tracking and weekly history.
- Voice-to-text chatbot using Vosk API for hands-free assistance
- Optimized Firebase Firestore schema for fast retrieval & clean syncing.
- Technologies: Java, XML, Firebase Firestore, Firebase Authentication, SQLite, Vosk API

Sudoku Solver & Generator

- Implemented an algorithm-based Sudoku generator and solver using backtracking techniques in Python.
- Technologies: Python CustomTkinter

Data Extraction & CSV Processing Tool

- Extracted structured data and exported it to CSV format using Python Pandas for analysis and reporting.
- Technologies: Python Pandas

Mobile Utility Applications

- Developed multiple mobile applications including a scientific calculator, to-do list, stopwatch, quiz app, and unit converter, focusing on clean UI and input validation.
- Technologies: Java/XML, Android Studio & Git

Portfolio Website

Designed and deployed a personal portfolio website using HTML, CSS, and JavaScript, hosted via GitHub Pages.

APK Download Host Page

Created a simple website for hosting and downloading APK files using HTML/CSS and Google Drive integration.

Awards

Young Innovators Program (YIP – K-DISC) – State-Level Winner,

Kerala Development and Innovation Strategic Council

Selected at the state level for proposing an innovative solution under the Kerala Development and Innovation Strategic Council initiative.

National RoboKart Championship – Finalist

Reached the finals in a national-level robotics competition, demonstrating problem-solving and technical teamwork skills.

AmritaBit 9.0 & 10.0 Project Exhibition & Competition, Amrita School of Computing, Kochi

My projects selected among the top projects of at Amrita School of Computing, Kochi for the years 2025 and 2026.

Certifications

Python for Data Science (Elite)
– NPTEL, IIT Madras, SWAYAM &
Skill India

Jan-Feb 2026

**Software Engineering and Agile
Software Development –**
Infosys Springboard

High Impact Presentations –
Infosys Springboard

**Programming Fundamentals
using Python (Part 1 & 2) –**
Infosys Springboard

Agile Scrum in Practice –

Workshops

Cybersecurity Workshop: Offensive Security & Digital Fingerprinting, *bi0s, Amrita Vishwa Vidyapeetham*
Exposure to ethical hacking concepts, offensive security techniques, and digital fingerprinting fundamentals.

Immersive Boot Camp Kerala Development and Innovation Strategic Council (K-DISC)

Participated in an innovation-focused boot camp emphasizing problem identification, solution design, and teamwork.

National Robotics Championship Zonal Workshop Innovation Cell

Hands-on exposure to robotics fundamentals, system design, and competitive problem-solving.

EXTRACURRICULAR & VOLUNTEERING

Institute's Innovation Council (IIC) of Amrita Vishwa Vidyapeetham,
Technical Member

- Volunteered in workshops and programs conducted.
- Conducted coding completions and looking forward to contributing more.

National Service Scheme (NSS) Volunteer

Participated in community service activities, a 7-day residential camp, and a nature camp at Shendurany Wildlife Sanctuary, Thenmala.

Shendurany Wildlife
Sanctuary, Thenmala

Junior Red Cross Volunteer

Actively involved in seminars and training programs, including first aid, fire & rescue, and disaster response awareness.

Karate – Black Belt (Shito-Ryu)

Through years of training, developed discipline, perseverance, self-control, and resilience.
